

GROWTH REDEFINED.

ONE COUNTY. ONE FUTURE.

With all the hard work that has gone into the development of our goals and objectives, it is clear that we must do everything possible to form a vision that works beyond the words on a page. That is what the “One County. One Future.” event is created to do. On November 11th, in two separate sessions, residents of the cities and the county will come together under one roof and put their ideas into action—creating an actual vision of the future that will redefine the shape of the county for generations to come.

One County. One Future.

The Carolina First Center
